When a web surfer clicks through your affiliate link, a cookie is set in their browser that contains your unique affiliate link. Also, their IP address is tracked in the database along with your unique affiliate link. When this person decides to order one of our services, the script will look for this cookie and/or try to match their IP address to identify the affiliate who will be awarded the commission. Visitors sent through your affiliate link may make a purchase later in time and the commission will still be awarded if the cookie is present in their browser and/or they are using the same IP address as the one logged in the database.
